"A high school is a place for the communication and the circulation of thought . . .

. . . A place to which students come for every type of knowledge. In the nature of things, study and opportunity go together; excellence implies a center . . . such is a high school."

The concept of a high school is not symbolized by the walls of the building or the tools of learning that it contains, but it is represented by those who come within these walls to make use of these tools. Each person contributes individually to the composite by his thinking, his concepts, and his actions. As individuals mingle in classes, extracurricular activities and social functions, personalities merge with the standards of the represented communities and the policies of the school to form the unmistakable concept that this is a high school.

This is Nelson County High School.

THE GOVERNOR OF STUDENT LIFE CONCEPT

The crowning moment! Lynn Mays crowns Liz-zie Hughes The Homecoming Queen.

The future Rockettes! The cheerleaders really show their spirit at Homecoming.

THE GOVERNOR CONCEPT . . .

Begins with the students — individuals, groups, fads, events, sports and routine, or not so routine, daily activities. N.C.H.S. is a home away from home. The central gathering place for nearly 800 students.

In the beginning —

The date: October 5, 1984

The place: Veterans Memorial Field

The conflict: Nelson Governors vs.

Buckingham Knights

The occasion: HOMECOMING 1984

The traditional bonfire burns as the crowd — students, parents, alumni — gathers. Cheerleaders, varsity and J.V., chant those mystical words to cast spells to insure victory.

At half-time everyone sits anxiously as the band plays, and the homecoming court appears on the field with their escorts. Lizzie Hughes, Kim Wilklow and

Carolyn Giles, the three members of the senior homecoming court, wait. The student body had voted, and the winner is . . . LIZZIE HUGHES!

The game is over. The final sparks of the fire are doused. The crowd leaves . . . some to the homecoming dance in the gym; others to reminisce; and rest went home. The Governors had fought bravely; the spells and cheers had lost their potency. After a long battle and after giving their all, the Governors lost. Spirits are dampened but our concept is to not look behind but ahead to the next challenge.

Here comes the Governors! Paul Foster runs through the spirit line as his name is called before the game.

Nelson brings it in! The guys get Psyched for the game.

A governor celebration!! The students showing their spirit after the pep rally.

Spirit Week

Monday — Beach Day — Mary K. Wood
 Tuesday — Twin Day — Randy Hall, Jeff White, Billy Brough, Keith Morse
 Wednesday — Military Day — John Saunders, Kim Clark
 Thursday — Outrageous Day — Randy Hall, Mary K. Wood
 Friday — Green and Gold Day — Karen Bridgewater, Bernie McGinnis

Ask not what your football team can do for you, but what you can do for your football team! Coach League talks to students to arouse them for the homecoming game.

SPIRIT WEEK IS . . .
 getting dressed up, decorating halls and showing your school spirit in an orderly manner. Spirit week not only boosts the morale of the students, but also the morale of our football team.

In hall decorations juniors and seniors

joined. The grand finale of spirit week is the pep rally. This includes voicing your support for both the school and the football team. The pep rally was very successful and the dominating power of the senior class prevailed once again and, without a doubt, won the yell out.

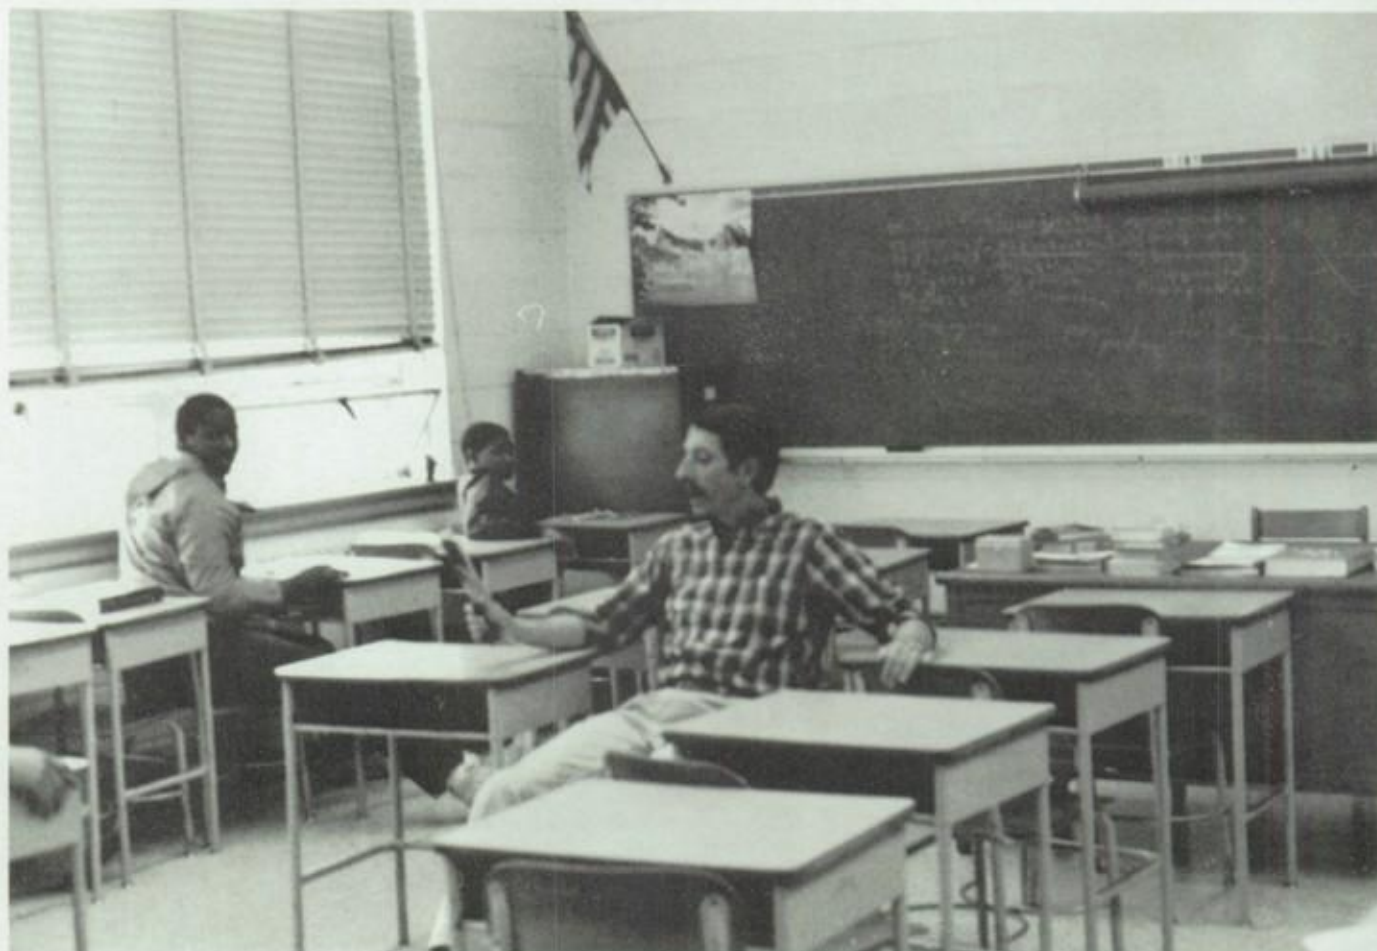

Just try us! Lizzie Hughes, Crystal Shifflett, David King, F.G. McGann, and Mike Cash took part in dressing up in camouflage for spirit week.

The seniors show their disregard. During the yell-out the seniors held up newspapers while other classes were doing their activities for the pep rally.

Look at that profile. Mr. Meeks teaching one of his freshman English classes.

Just another boring day in ole Bruguiera's room. As the seniors start off a new week, they find it hard to get into the school routine.

WORKING IT ALL OUT

Look at those teachers bumming again! Mr. Norris and Mr. Davis taking a tour of Monticello with the summer school students.

Don't shoot, don't shoot!! Glen Simpson and Debbie Cash goofing off in gym class.

Problems Mr. Greene? Mr. Greene answers questions for Scott Goodloe and Roger "Crow" Turner.

Kenny's latest construction. Kenny Robertson is working on a project for building trades.

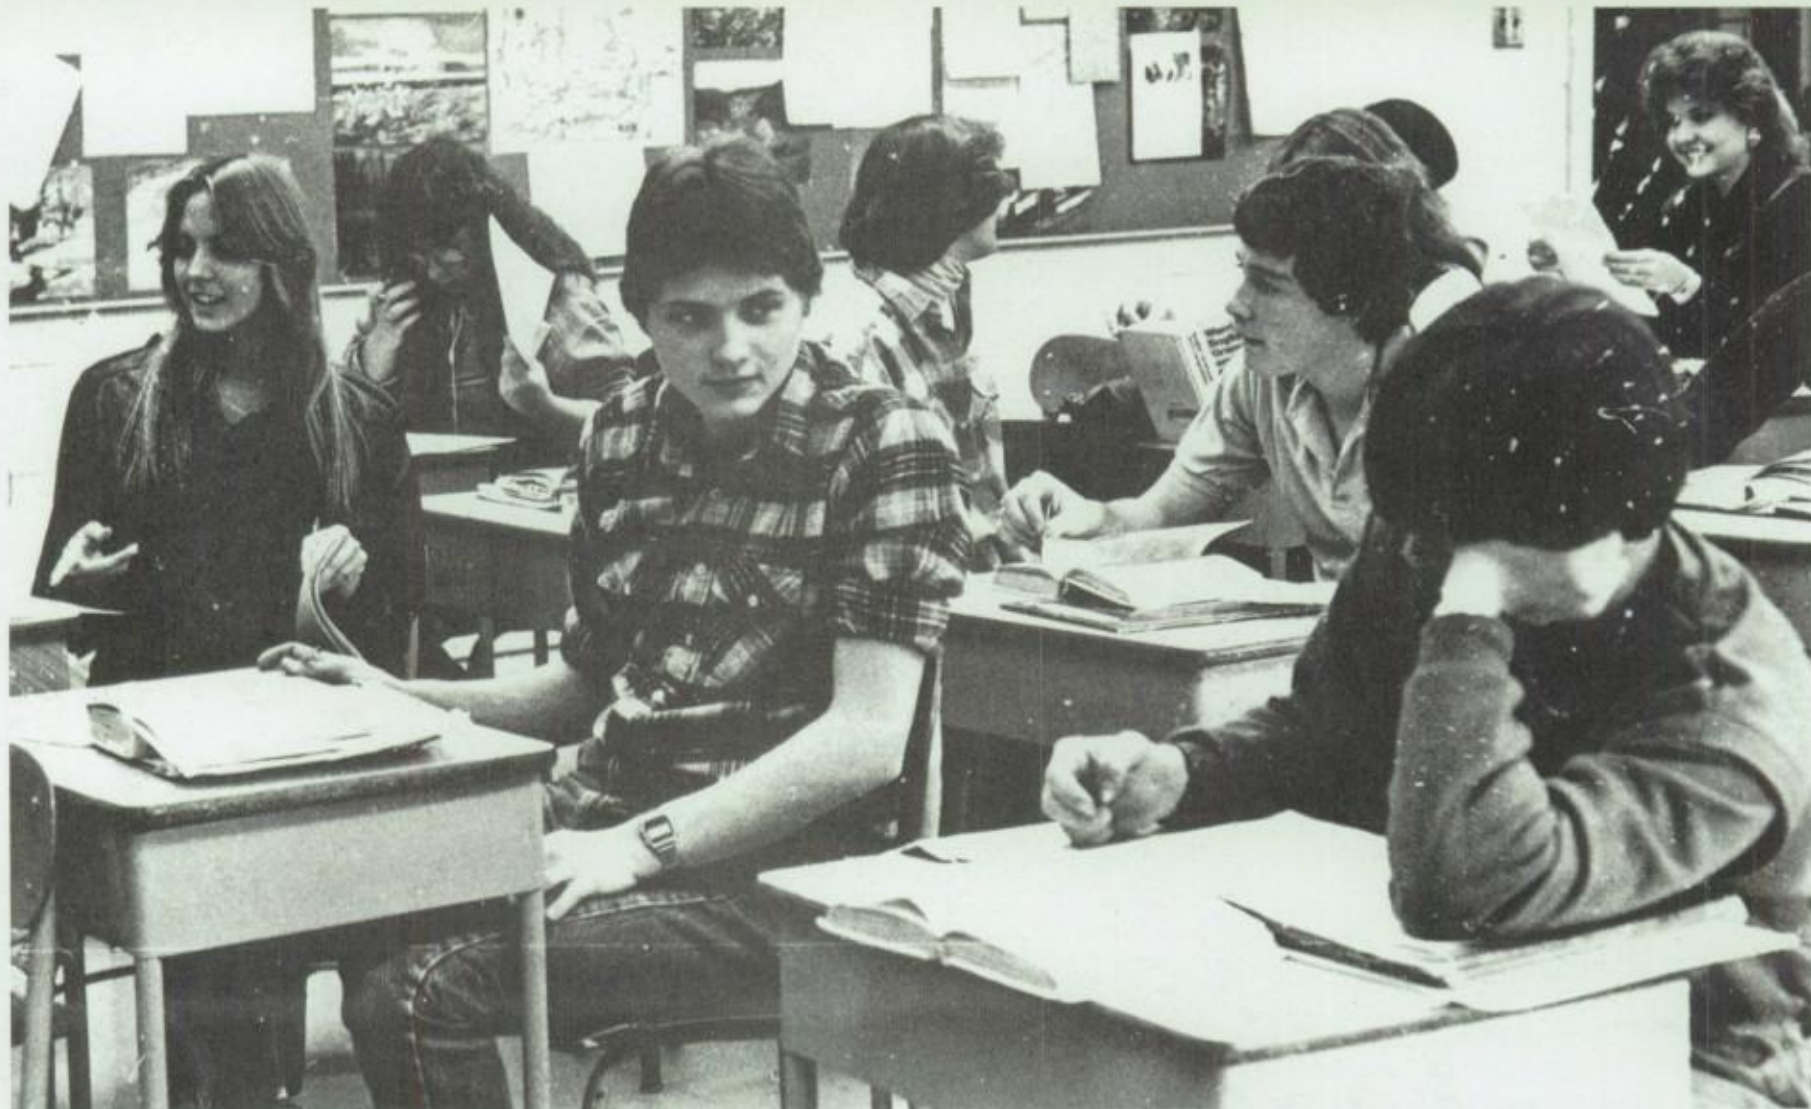

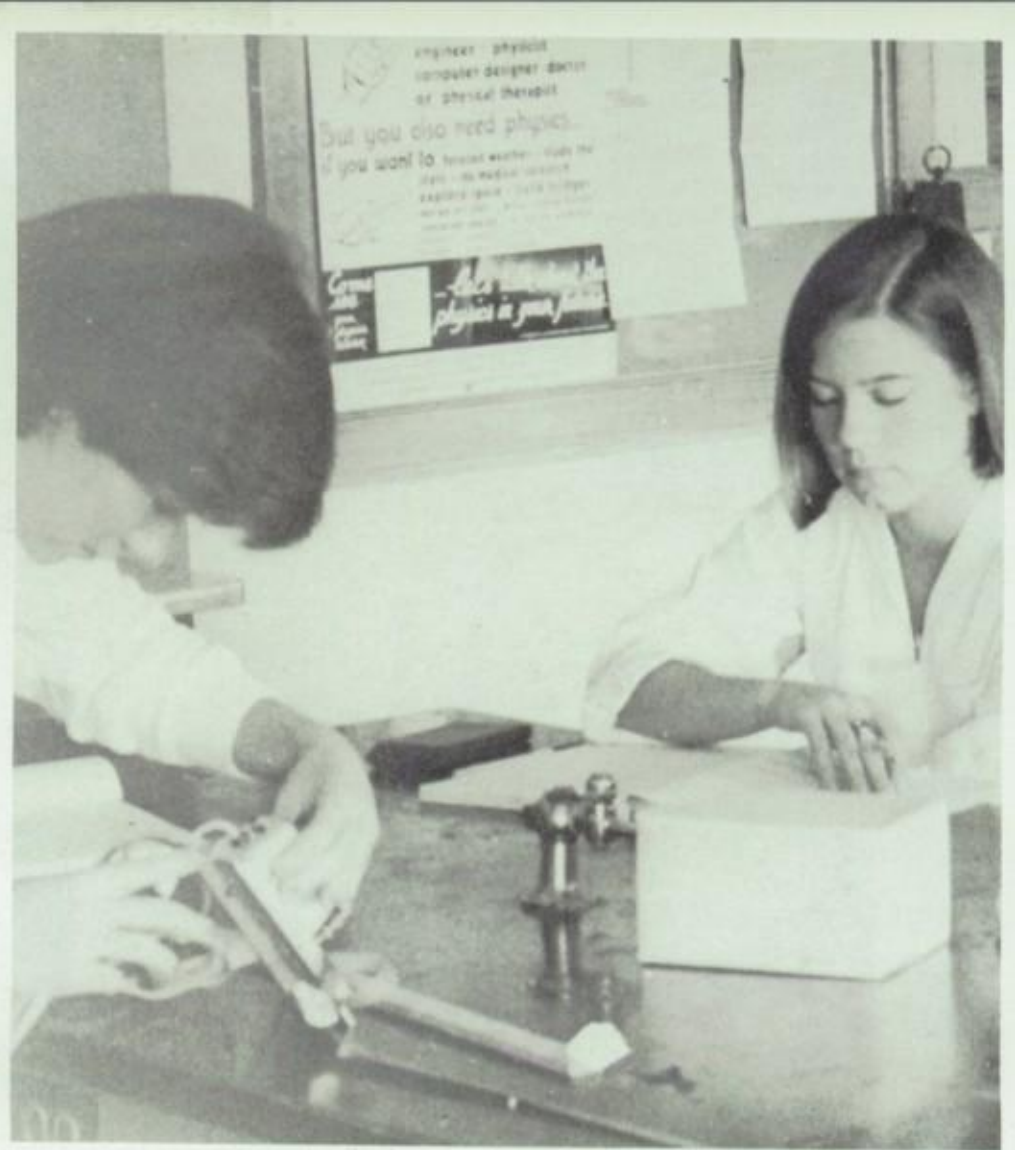

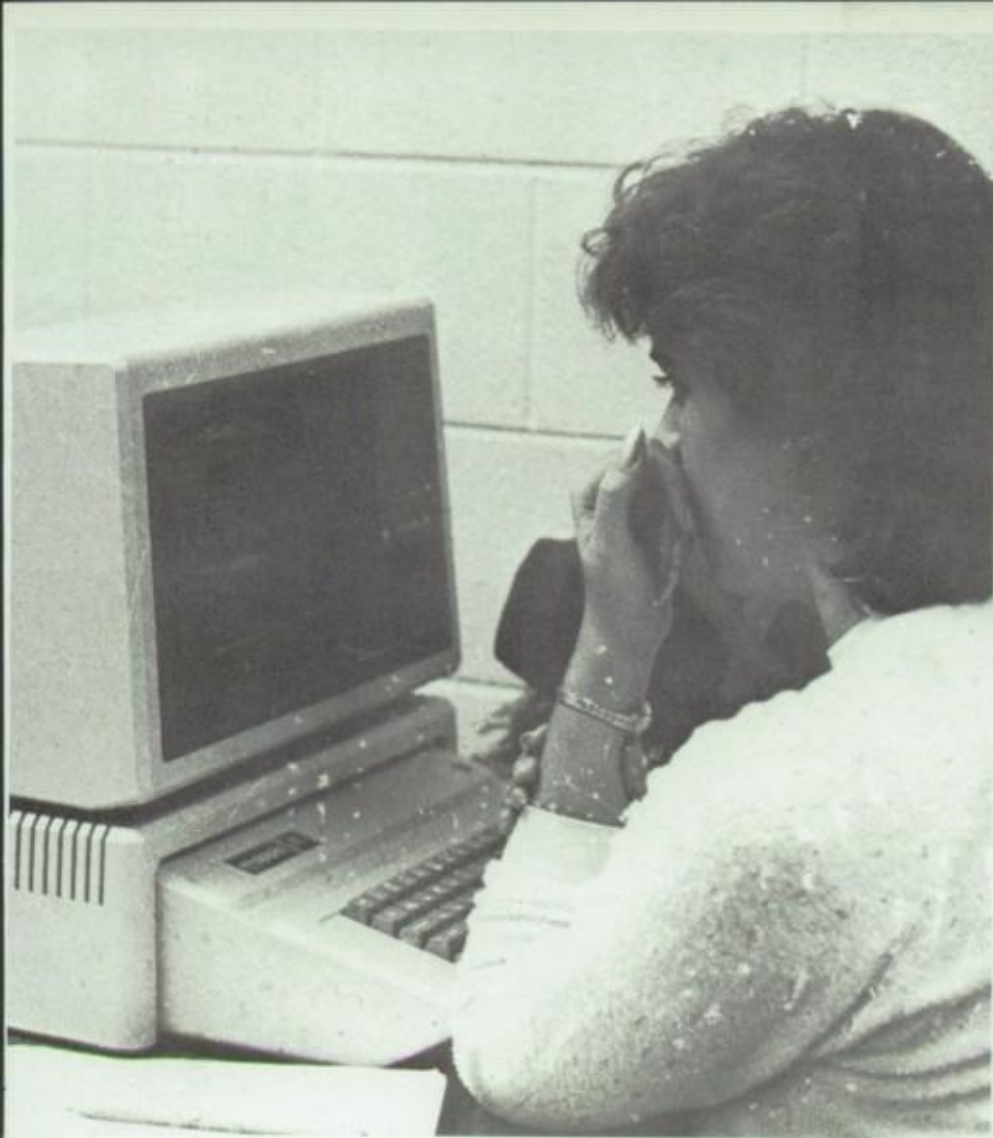

At Nelson County High the Governor Concept includes every day life. Here we see the teachers doing their various activities. The students get involved in the various activities by participating in the academic concept of the school. For the students' benefit a number of academic courses are available to those who like to challenge the mind. By participating in a number of activities, students get involved and learn a number of things.

Lunch and socializing in the halls are part of the daily routine of every student. It helps to relieve the monotonous atmosphere that is represented by the constant struggle to achieve good grades. When the senior bell rings and the halls become a mad rush, you can always find students congregating at the lunch line. Some students are fortunate enough to drive to school and hang out in the parking lot and the Food-Mart after school.

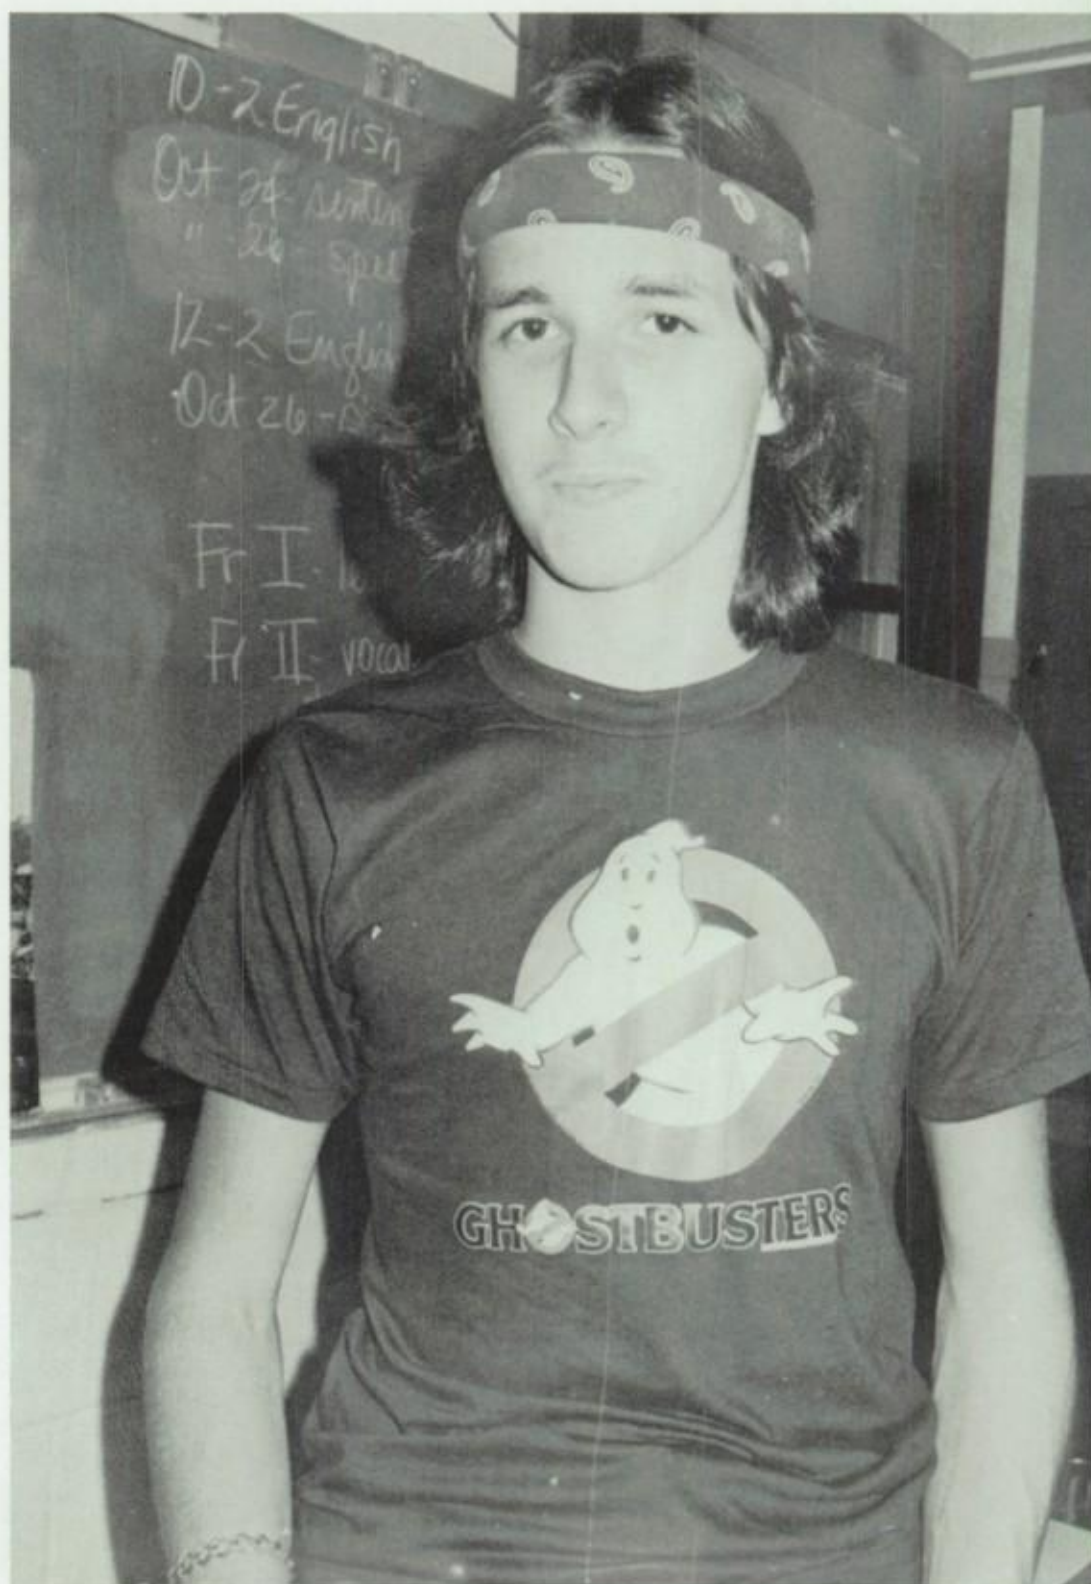

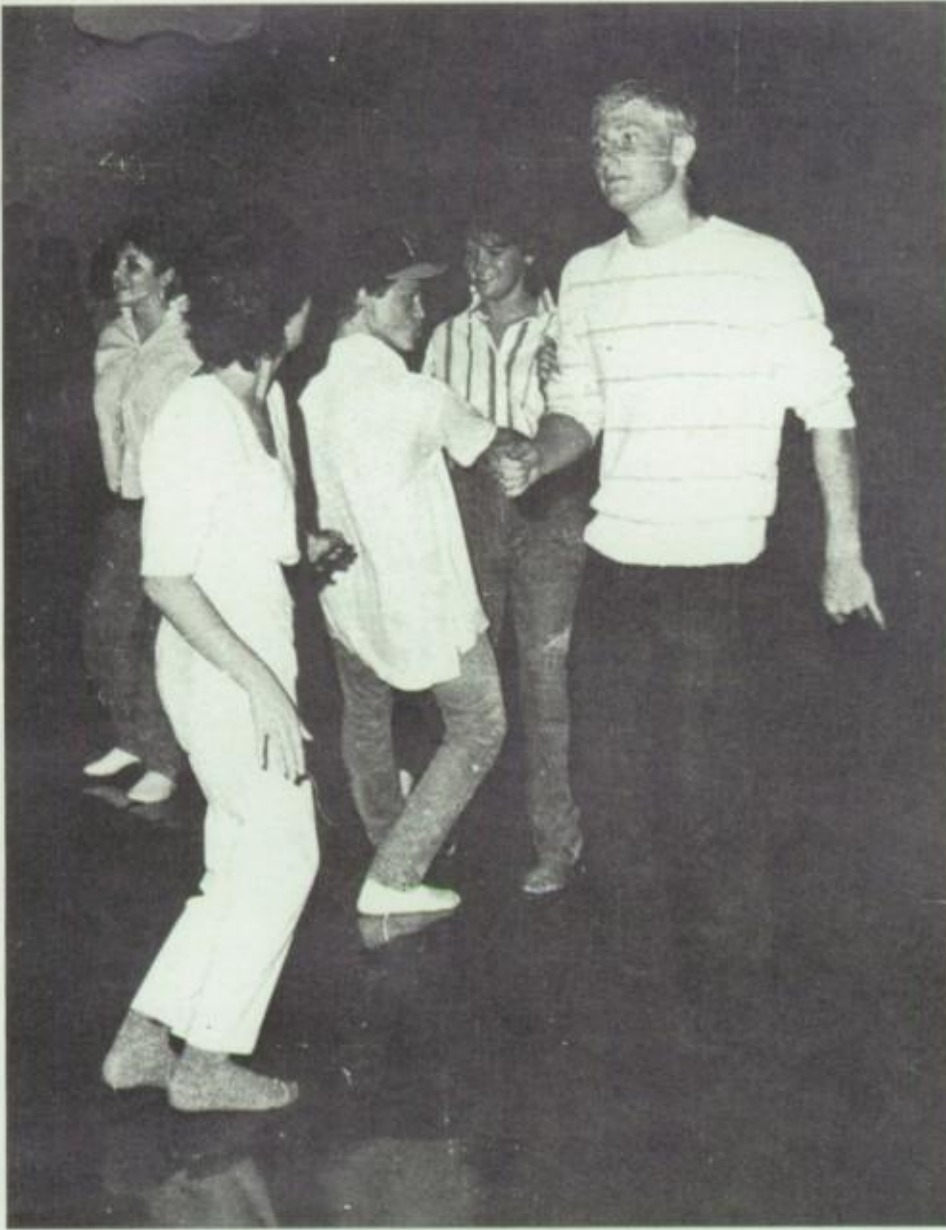

FADS

During the 84-85 school year, we have witnessed many different styles, fads, and types of music. As the year progressed, one style would end, and another would take its place. Everything from breakdancing to wearing sunglasses came into style at one time or another.

Who ya gonna call?

READY?

Practicing is a very important part in getting ready for games. If the team doesn't practice well, they aren't going to play well in the games. It is important to get the fundamentals of your game mastered. After many hard hours of practice, the team is finally ready for the big games.

Mr. Greene gets in the act, too.

Scott is hanging on the line.

PHYSICS OLYMPICS

Ordinary children's games defying the laws of physics? No! Mr. Greene gives instructions to the class to see that physics applies to every day including children's games.

AUTOGRAPHS

Students at Nelson County High School get involved with a number of activities. Whether the activities are for learning or just for enjoyment, students generally have a lot of fun participating. A number of the activities held throughout the year are sponsored by various clubs to further students' opportunities.

"Food for America" is sponsored by the FFA. All elementary students, grades 1-4 come to the high school for the exhibits.

Each Thursday, Health Occupations goes to different health related offices in the community to study, observe and help. Here two students help the vet.

Vote! Vote! Vote! Mr. Norris' government classes held a mock election to get an idea of the students' political standings.

HOSA also sponsors a very successful blood drive at the high school. Only students and staff members participate.

PREP

PREP is the Piedmont Regional Educational Program. It is composed of children who are two to six years old. This year PREP has a new teacher, Sue Eason. The class moved from the high school to Ryan Primary so that the children would be surrounded by other children closer to their age group.

And on today's agenda . . . Lynn investigates the paper on her desk.

A little love goes a long way.

TMR

The TMR class with their teacher Mrs. Green meets at the high school, too. Besides math and English and other academic studies, the students learn skills for everyday life. They also learn skills which can prepare them for jobs after school. The students often help prepare and post information items for the teachers and administration. This year TMR went to the Special Olympics in Lynchburg. The students were excited and pleased with their efforts. Their hard work paid off.

YEARBOOK

This year's annual staff was headed by co-editors Romelda Harvey and Lizzie Hughes. Because of higher graduation standards, fewer students were able to be in the first period annual class. As a solution to this problem, members who were unable to be in the first period class stayed after school to work. This past summer Romelda Harvey, Lizzie Hughes and Leslie Campbell attended a yearbook workshop at Longwood College along with their sponsor, Mrs. Helen Delk. A new feature to this year's GOVERNOR, is our summer delivery which enables the staff to include the prom, banquets, and graduation.

The Literary Magazine is a collection of poems, short stories and art submitted by staff members and other students in the school. This year's magazine was called IMAGES. The officers for 1984-1985 were: Mary Washington — Editor in Chief, Kim Martin — Assistant Editor, Lolita Spencer — Secretary, Camille Flippin — Business Manager, Mr. Tom Meeks — Sponsor.

I hate it when people look over my shoulder!! Roger Turner, Romelda Harvey and John Saunders draw layouts and write copy for the yearbook.

Yearbook Staff Row 1 — A. Easley, H. Delk — Sponsor, R. Harvey — Editor, L. Hughes — Assistant Editor, K. Kent. Row 2 — K. Morris, J. Parr, M. Turpin, J. Saunders, R. Flippin, A. Roach, C. Campbell, R. Turner, C. Flippin, S. Rourke, K. Wilklow, L. Spencer, K. Hatter, C. Mattson, M. Mays.

NEWSPAPER/S.C.A.

The staff of this year's Spectrum did a very fine job even though their sponsor, Mrs. Linda Crews, was out during the latter part of the school year. The officers of the 1984-85 Spectrum were: Shelby Ramsey — Editor, Wendy Rittenhouse — Business Manager, Michelle Weesner — Circulation Manager, Patricia Blevins — Photographer, and Merima Skrgic, Suzette Lunsford, John Wright, Jay Mabrey, Karen Bridgewater, and Deborah Thompson — Reporters.

S.C.A., the Student Council Association, meets the first Wednesday of every month. S.C.A. makes decisions which concern the entire student body. The 1984-85 officers were: Sydney Poutasse — President, Wayne Helbert — Vice-President, Margaret Turpin — Secretary, Crystal Shifflett — Treasurer, Frances Poutasse — Reporter, and Keith Morse — Parliamentarian. This year the S.C.A. sponsored the Christmas dance and the Ring dance.

The FFA also offers experience in many technical and mechanical fields to its students.

Horticulture is a club dealing with the growing of many different kinds of plants. This club helps students who want to open up a business of their own. If a student doesn't want to go into horticulture as a career, the horticulture club can still help that student to better know his own plants. Members of the horticulture club are very active in the culture and sale of houseplants, budding plants and vegetable plants. This year an arboretum was designed in front of the high school. It was dedicated at the end of the school year.

I thought Ed's game was golf, not pool. It seems Ed Armentrout's golf club has suddenly changed into a pool stick.

Golf Team R. Reid, E. Armentrout, K. McGann, B. Norris — Coach, B. McGinnis, R. Purvis, C. Floyd.

"The Three Stooges", Russell, Bill, and Bernie await practice. As they do, they take some helpful tips from another golf player.

Sitting down on the job? As he debates about his next putt, Robert Jon Purvis tries to line up his ball to the hole.

"Give it your all team!" As the team gets ready for their track meet, Coach Coyner gives them a few last minute pointers.

The Nelson cross country team has had one of its most successful teams in years. They were 10-0 in the district meets and won the Seminole District Championship.

The team was so successful this year because of the teamwork executed by the team members. The team included Jeff Harris, who dominated the district and placed first in a number of meets; Wayne Johnson, who has improved greatly this year and placed third in the District meet; Davey Johnson and Tommy Harris who both came out for the team and proved to be a great asset to the team; Coltrine Gardener who is the youngest runner on the team and placed in every meet; Adam Wilhite, who has steadily improved with experience, actually won the Seminole District title by beating Jefferson Forest's sixth man; Fred Thorn, who is a foreign exchange student, ran well and finished strongly in every race; Mike Cash and Daniel Harris and George Cheape all helped to support the team tremendously by backing up the team and running well in practice.

Coach Jim Coyner and Assistant Coach Andy Allen helped the team to understand what the team was capable of accomplishing, and how to run well. Their main idea was teamwork was the right path for becoming champions.

VARSITY FOOTBALL

The 2-8 record of the 1984-85 football team was one of disappointment and frustration. One of the new additions to Nelson County High School was the new lighting system that will match any system in our district. The delay in completion of the lights necessitated moving the first game to George Washington Carver High School. This seemed to set the season off to a bad start, which the team was never able to recover.

Highlights of the season included the playing ability of the captains; Linebackers Scott Clarkson, F.G. McGann, and Skeets Spencer, and Safety Paul Foster.

Next year's team will be a young team because a number of seniors will be leaving, including James Miles, who was selected to the Second Team All-Conference as Defensive End.

BASKETBALL

Rebound! The cry explodes in the gym as Nelson County plays. The crowd had more than enough opportunities to cheer and clap for NCHS's round ball team. Nelson went to tournament but lost to a heart-breaking score. Regardless, the Governor's concept is to look toward the next game.

This year, NCHS loses its coach C. M. Price. The team will remain a team and play with NCHS pride.

WINNERS

The Governor's concept is giving and doing your best. The year passes slowly between holidays and quickly right before vacations. But, NCHS' is never too hurried or rushed to recognize its winners throughout the school. They are heralded, dined, photographed and congratulated. They have gone beyond just getting grades, just learning the skills; they have excelled. Each one is now a particular example to every one of the concept of being an individual, of setting standards, of reaching goals that demand the extra practice, work, studying and learning.

These students have finished their youthful days and are now ready to go on to bigger and better things — college, marriage, career, and family.

The time has come for the graduates of 1985 to receive those special papers that they have strived to achieve for the past 12 years of their lives.
